

CEWELD CroNiMo HLS

TYPE	High recovery Stainless steel stick electrode for welding dissimilar joints.		
APPLICATIONS	Cronimo HLS is a high recovery rutile/basic electrode for welding dissimilar steels. Suitable for welding low-alloyed steel to stainless or austenitic manganese steels. Maintenance and repair welding of unknown or difficult to weld steels.		
PROPRIÉTÉS	Good corrosion resistance against seawater and general corrosion with excellent welding properties with self detaching slag.		
CLASSIFICATION	AWS	A 5.4: E 308Mo-26
